TERRIBLE LOSSES

Japanese Unsuccessful Attack on Port Arthur

RUSSIA HEARS CHEERING NEWS

Rumors of Many Kinds From Many Quarters

OKU'S ARMY NUMBERS 60,000.

St. Petersburg, July 11.—Details of the Russian retirement from Kai Chou, which is hailed as a great victory at Tokio, according to the official report of Lieut.-Gen. Sacharoff, commander of the eastern army, show that it was little more than a series of skirmishes. The Russians lost about 700 men. The Tokio report that ten guns were captured is unfounded. The Russians retired in perfect order before General Oku's army, consisting of four divisions. General Oku's advance continues. His main force, which the General Staff believes to be almost sixty thousand strong, was yesterday about five miles north of Kai Chou. The skirmishers were three miles further north. The Japanese cavalry is proceeding to New Chwang and a heavy force of Japanese is converging at Siadimaf, half way to Ta Tsakia on the Sen Yen road. The statements of the General Staff foreshadow an engagement at Hai Cheng. Up to noon yesterday the Japanese had not resumed the offensive. The Admiralty has no confirmation of the reported activity of the Port Arthur squadron. Nevertheless there is excellent ground for believing that it has gone out of Port Arthur. The Vladivostok squadron is also at sea, and important naval developments are expected.

AN ABORTIVE SALLY.

Tokio, July 11.—The Russian cruisers Bayan, Diana, Pallada and Novik, two gunboats and seven torpedo boat destroyers came from the harbor of Port Arthur on Saturday morning, July 9th, preceded by a number of steamers engaged in clearing away the mines. In the afternoon the Russian vessels reached a point between Samsik and Lun Wan Tang, where they were attacked by a Japanese flotilla of torpedo boats and torpedo boat destroyers. Fire was exchanged with the Bayan. At four p.m. the Russian vessels retreated to the harbor. Admiral Togo reported that the Japanese vessels had one cabin boy slightly injured. The vessels themselves sustained no damage.

SHELLED THE JAPS.

Chafoo, July 12th.—It is reported that five Russian cruisers and several torpedo boats left Port Arthur at 6 o'clock on Saturday morning last, and shelled the enemy's position on the west coast returning undamaged at 6 o'clock in the evening. It is believed they encountered Admiral Togo's ships and were forced to return. A junk which arrived here this morning reports having two terrific explosions at Port Arthur yesterday.

ATTACKED THE GUARD SHIP.

Tokio, July 12th.—Admiral Togo reports that at midnight on July 11th, the torpedo boats approached the boom which blocks the entrance to Port Arthur harbor and attacked the guardships with torpedoes. The result has not yet been ascertained. The Japanese boats returned undamaged.

ADVANCING ON NEW CHWANG.

New Chwang, July 12th.—Chinese coming in from the country report the Russians everywhere retiring before the Japanese who are soon expected here. Active preparations are being made for defence at Ta Tote Kao. Business at this city despite the situation is brisk and many ships are in the port.

STAKELBERG RETIRES.

T'en Tsin, July 12th.—Lloyd's agent at New Chwang telegraphing under the date of July 11th says: "General Oku has occupied Kai Chou without resistance. Gen. Stakelberg retiring on Ta Tote Kao. I don't expect trouble either with Russian or Japanese troops."

BATTLE EXPECTED.

Gen. Count Keiled's Headquarters, via Liao Yang, July 12th.—A serious fight is expected soon. The opposing forces are now occupying the hills on opposite sides of the valley of Liankai river where it crosses the Liao Yang road.

SORTIE FROM PORT ARTHUR.

Paris, July 12th.—The Echo de Paris prints a St. Petersburg story that the Port Arthur garrison by a vigorous fight captured 4 guns and 40 prisoners. The heights in the rear of the fortress he says, are surrounded by 10,000 Japanese troops. The Petit Parisien hears from Chafoo via St. Petersburg, that the vanguard of the Japanese army reached Yenkow to-day and that a serious engagement is in progress on the Russian right flank.

AWFUL LOSSES REPORTED.

St. Petersburg, July 12th.—A despatch from the Russian correspondent at Mukden dated July 12th, says: "According to intelligence received here the Japanese last night attacked our positions near Port Arthur and were repulsed with enormous losses. Not less than 30,000 it is said, were killed and wounded by our mines."

MYSTERIOUS MOVEMENTS.

St. Petersburg, July 12th.—The Japanese advance to Tatchekiao is shrouded in mystery. No telegram has been received by the General Staff or the Admiralty since Lieut. Gen. Sacharoff's dispatch of July 10th, with the exception of a report from General Kuropatkin covering the events detailed by General Sacharoff. The Japanese account of the fighting at Kai Chou is offset by the admission that they are being greatly worried by General Rennenkampf's Cossacks.

SKIRMISHES.

Tokio, July 12th.—The Japanese Takusan army is moving northwest from Su Yen and fought a series of small battles with Russians on July 9th and 10th.

MORE RUMORS.

Paris, July 12th.—The Petit Parisien says that a rumor is current in St. Petersburg of a combined triumphal sortie of the Port Arthur squadron and part of the garrison. The Russian ships are said to have succeeded in getting to sea in the direction of the Ocean Straits. A sortie of General Nishino's troops is reported to have been attended with success. A strong attack on the town by the Japanese followed the sortie. It is also stated that the Vladivostok squadron has made another raid on Gen San.

WHITE WHALE LAKE

Bulletin Correspondence.

A charge of assault preferred against Frank M. Keele, trader, by Lucas Johnson, was investigated by D. H. Lent, J.P., before a full house on Saturday, July 9th, and resulted in a conviction. As it was a first conviction, and the defendant offered to satisfy the claims of the complainant for services as might be determined by the court, the defendant was discharged from his conviction upon paying the costs of the court.

We understand that Mr. Keele has sold out his business to Chas. Dunn. Judging by the number of children now to be seen on our Indian reserve the Indian is not likely to be a vanishing quantity in the near future. The authorities have done wisely in securing a regular teacher to give his whole time to that duty. Mr. Elwett and family have arrived and he begins duties at once.

Bush fires must be raging to the northwest of the lake as a heavy pall of smoke hangs over our settlement.

The river drivers are busy these days sending down the logs and lumber while the conditions are favorable.

The crowd of Stoneys who recently went to Morley have returned with motley bunches of ponies. There will be roistering times for a while.

The roads on the reserve might be easily improved now before the haying season. Let us hope they will be looked after.

AGRICULTURAL INSTITUTE MEETINGS

James Fletcher, LL.D., entomologist and botanist, Dominion experimental farms, and T. N. Willing, chief Territorial weed inspector, Regina, will deliver lectures on subjects pertaining to noxious weeds and their eradication at a series of meetings to be held under the auspices of the local agricultural societies and the Territorial Department of Agriculture at the following points and on the undermentioned dates:

Red Deer, July 18, at 8 p.m.
Edmonton, Garipey hall, July 19 at 8 p.m.
Spruce Grove, July 20, at 2 p.m.
Ray, July 21, at 2 p.m.
New Lunnon, July 22, at 7 p.m.
Fort Saskatchewan, July 23rd at 2 p.m.
Bruderheim, July 25, at 3 p.m.
Star, July 25, at 7 p.m.
Logan, July 25 at 7 p.m.
Tofield, July 27, at 2 p.m.
Beaver Lake, July 28 at 2 p.m.
Vegreville, July 29 at 2 p.m.
Egg Lake, July 29, at 7 p.m.

The speakers will identify any plants brought to the meetings.

All persons interested are respectfully urged to attend.

EDMONTON RIFLE ASSOCIATION

There are now on display in G. H. Graydon's window seven medals presented for weekly competition by the members of the Rifle Association.

Three of these form first, second and third prizes for best weekly aggregates at 200, 500 and 600 yards, open to all members.

Two others form first and second prizes in special class at 600 yards, only open to all members and are offered for the purpose of improving the shooting at this difficult range.

The remaining two are first and second prizes for 200 yards in second class, those members who composed the team shooting in the recent M. R. L. matches and any others in the opinion of the committee eligible for the higher class, being debarred from competing for these.

The weekly scores will count and the parties winning the greatest number of times will receive the medals at the end of the season.

This should encourage rifle shooting and Mr. Graydon will be pleased to take the names and subscriptions of any desirous of becoming members.

A LIVELY TIME AT THE FIRE HALL

Things were lively for a time at the fire hall last evening.

At eight o'clock Police Magistrate Cowan opened police court there to investigate the cases of the Chinamen charged with running a fan tan game on Queen avenue. The Chinamen were out in force, with witnesses, friends and sympathizers, while a goodly crowd of Gentile spectators were gathered to witness the first trial for this offence in town.

Suddenly there came a sharp flash of lightning, the telephone bell tinkled and a flame shot from the instrument, while a terrific crash of thunder broke the stillness of the court. A few moments later a breathless messenger brought the news of the fire on First street, the alarm was sounded, and the fire team, coming through the rear door, broke for the hose wagon. "Then and there was running to and fro," and witnesses, prisoners and spectators scooted in all directions for safety.

When the excitement subsided the court resumed business, but little progress was made until the second call came on the emergency phone, the bell pealed again, the brigade rushed in for waterproofs and the reels changed out. To continue the court was clearly impossible and an adjournment was made until this morning.

The incident revealed the absolute necessity of making provision of other quarters for the police and the police court, as will be done when the new hall is erected.

AN INQUIRY

Edmonton, July 12th, 1904.

To the Editor of the Bulletin.

Dear Sir.—Being a frequent caller at the old reading room on Second street, I wish to call attention to the great change that has taken place consequent on its transference from the Second street to its present quarters in the council chamber. Formerly we got everything in ample order consistent with the punctual delivery of mails. Now it looks as though everything was withdrawn. For instance the Toronto papers were on file with constant regularity; now the Toronto Globe has nothing on the file nor in the room since May 20th. the Mail and Empire June 1st, the Toronto World June 1st, and about 3 papers of back date, and other papers are about the same. The Illustrated London News instead of only one number since coming into the present quarters, there should have been one delivered every week. Has the whole thing changed from one of a public to a private convenience? An explanation I think is only fair to the reading public.

A CONSTANT READER.

HEAVY THUNDER STORM

Edmonton was visited last evening by the heaviest thunderstorm of the season and one of the heaviest for several years. The day had been cloudy, but little rain had fallen during the afternoon and the prospects seemed fair for a resumption of fine weather. About eight o'clock, however, heavy clouds rolled up from the west, driven by a strong wind, and a gentle sprinkle began. This was only the preliminary, however, and the real event was introduced by a succession of brilliant flashes of lightning, followed by deafening peals of thunder. Then the rain began and for an hour or so it fell in torrents.

The storm seemed to settle the climatic conditions, and this morning broke with a cloudless sky, a bright sun and a cool breeze.

Banquet to Mr. Fielding

Toronto, July 12th.—The Fielding Club's banquet to Hon. F. W. Fielding at the King Edward Hotel last night was marked by a large gathering, by enthusiastic reception to the guests and by four hours of first class oratory.

Compliments to the Liberal party and its leaders were enthusiastically paid and enthusiastically received.

PARLIAMENT

Ottawa Correspondence.

The New Minister of Railways

Monday's sitting began at 11 a.m., the first of the morning sittings of the session. The principal business of the day was the presentation of his statement regarding the Intercolonial railway by the Minister of Railways—Hon. Mr. Emmerson. Mr. Emmerson has been in control of that Department since the end of last session and appears to have acquired a thorough grasp of the affairs of the Government railway, while he has not been in control long enough to permit of the results of his administration being shown.

A Discouraging Statement

It was his duty on this occasion to make a statement which was certainly anything but encouraging. In the year ending June 30th 1902 the earnings of the railway were nearly \$100,000 over working expenses. During the following year there was a surplus of \$127,000 of earnings over working expenses. The accounts for the full year ending June 30th 1904 had not been made up; only ten months had been completed. This showed a loss as between earnings and working expenses of \$547,000. Mr. Emmerson accounted for this discouraging statement by the increase in the cost of keeping the road open last winter during the extraordinarily severe weather, the increased cost of coal and the increased wages paid to employees.

Large Capital Expenditure

But the loss in actual operation of the road does not tell the whole story. There is necessarily a continual addition to the capital expenditure, in betterments of the road and renewals of rolling-stock. In round figures this capital expenditure amounted to a quarter of a million in '96; to one hundred and fifty thousand in '97; a quarter of a million in '98; a million in '99; a million and three-quarters in 1900; 2-1-2 millions in 1901; 4-1-2 millions in 1902; 2-1-4 millions in 1903; and the proposal is an expenditure of 4-1-2 millions for the year ending June 30th 1905.

An Experiment in Government Operation

The Intercolonial is Canada's experiment in Government railway operation and is one of the great reasons why the idea of government ownership and operation does not take any strong hold amongst the people of the two great provinces of Ontario and Quebec which contain the large majority of the people of the Dominion. There may be reasons inherent to the road itself which prevents it from being a paying proposition; but on the other hand it is a fact that it is substantially built, has easy grades and makes desirable and valuable connections between the maritime provinces with their open winter ports and the rest of the Dominion.

Conservative Management—A Loss

Since it was built the Intercolonial has never paid a cent of interest on its cost. The difference between the results of its management under Conservative and Liberal rule is, that under the former it did not pay nor come within measurable distance of paying

its running expenses, but the annual capital expenditure upon it was kept within moderate limits. In other words, it was allowed to deteriorate so that it practically ceased to be a competitor for traffic to the maritime ports, the traffic being taken by the C.P.R. over its short line through the State of Maine to St. John, N.E., and then using the Intercolonial tracks from St. John to Halifax.

Liberal Management—A Loss

Under the administration of the ex-Minister of Railways—Hon. Mr. Blair—large capital expenditures have been made and the road brought up to first-class condition both as to road bed and equipment, and by its extension to Montreal it has been made an active competitor for business between the trade of western Canada centering at Montreal and the maritime provinces. As a result the road came up to the point of paying its working expenses; but the large capital expenditures necessarily made upon it to produce this result paid no interest and were simply added to the general loss on the original investment.

The Difference Between Public Good and Private Gain

It may be that the Conservative policy towards the Intercolonial was the best; and it may be that the Liberal policy is the best. It may be that there have been faults of administration under both Governments, or it may be that the faults have been somewhat greater under one than under the other. But there is no denial of the fact that the principal reason why the Intercolonial did not give better results than it has was because it was owned and operated by a Government as a public enterprise and not by a company for private profit. The difference between the reception given this announcement of the Minister of Railways by both sides of Parliament and that which would have been given him had he been the president of a railway company making his annual statement to his shareholders, shows the inherent difference between company and government ownership. Here is a railroad which everyone knows has never paid a cent of interest on its cost; which has seldom paid working expenses for any one year; which is now announced to have been operated at a loss of over 1-2 million dollars in ten months, and which requires a capital expenditure during the now current year of 4-1-2 millions of dollars. This announcement was received quite as a matter of course by a very slim attendance of the House of Commons, especially on the Opposition side, which, during the delivery of the latter part of the Minister's remarks, did not number more than fifteen of the members present. No suggestion was made as to greater economy of management or as to increased freight rates in order to balance the loss. Everybody took for granted that as long as the country could stand it there was no particular kick coming.

Politics in Railway Management

Had such an announcement been made to an ordinary railway company there would certainly have been a full meeting of the shareholders and a general resignation of the officers would have taken place to be followed by the election of a new board of officers with a new policy as to the conduct of its affairs. But when Mr. Emmerson made his announcement to the House of Commons, had any member in the House suggested either a reduction in the operating staff of the railway, a decrease of wages or an increase of rates, he would have been met by a united protest from every member of the House, irrespective of politics, representing any part of the country traversed by that railway. And however the rest of the people of the country might feel as to a change of policy and administration, with a solid contingent from all the country traversed by the railway opposed to any change except towards a further increase in wages, an enlargement of the staff, or a decrease of rates, any radical improvement in conditions of operation is simply impossible without a radical change in the method of control.

Good for the Maritime Provinces but hard on the Country.

No doubt the people of the maritime provinces get a good railway service and low rates of transportation. Such a condition of affairs may very well be desired by other parts of the Dominion. But it must be evident that the railroad conditions which prevail on the Intercolonial could not be extended throughout the Dominion under any circumstances without producing national bankruptcy. Ontario and Quebec, which hold the big vote of the country, are now gridlocked by railways under corporate control, and therefore could not benefit by government operated railways in other parts of the country. They are consequently almost unanimously opposed to the principle of government ownership and

operation.

Slim Attendance of Opposition

A protest was entered by several members of the Opposition against the morning sittings of the House while there was committee work to complete. Their complaint was that it was impossible to attend to their duties in the House and also in the committees. At the time the protest was made not more than fifteen members of the Opposition were in their places, the large majority of the members of that party having gone home to attend to their own private business, leaving only a handful to carry on their policy of obstruction. Had the members of the Opposition been in attendance and transacting their parliamentary duties there would have been plenty to attend both the committees and the House. As they must always have a majority, a much larger number of Government members are compelled to be in attendance than of the Opposition who only require enough to keep up discussion in order to obstruct business to such degree as they may desire.

Obstruction in the Agricultural Committee

A sample of this obstruction took place in the Agricultural Committee this morning. When the committee met the chairman, J. M. Douglas, member for East Assiniboia, suggested that the several amendments of the act regarding the shipment of grain should be consolidated and printed as consolidated. Instead of accepting this suggestion in a most necessary procedure in the interests of the western farmers, Messrs. Henderson, Clancy, Sproule, Wilson, Cochrane and other members of the Opposition, made objections on technical grounds until almost the whole hour for the meeting of the committee had passed; and the proposal stood over until a future date, possibly not to be taken up at all.

A. Mallin, Cochrane	354
A. G. Jordan, Calgary	353
W. C. Armstrong, Calgary	339

Testing Dairy Herds

The Department of Agriculture, Ottawa, has for some time been recommending the establishment among Canadian dairy farmers of co-opera-

tive testing associations, somewhat similar to those which have had such a marked effect in increasing the milking capacity and reducing the cost of production in Danish dairy herds. Under the direction of the Minister of Agriculture, an object lesson along that line is now being given in the district about Cowanville, Quebec, with the government cool curing room as the centre where the testing is done and the records kept. Arrangements have been made whereby 82 farmers in the vicinity undertake to keep accurate records of the daily milk yield of each cow in their herds. Samples of both morning and night's milk are taken three times a month and tested for butter fat at the cool curing room. The milk record sheets are collected monthly, and these are compared with the books of the cheese factories to which the farmers send milk, so that a fairly efficient check on accuracy is provided. Some 1450 cows are concerned in this Cowanville cow census, which shows that the large dairymen of that district are alive to the importance of weeding out the unprofitable producers. This testing association is, as yet, merely in the experimental stage, but if it works out satisfactorily, it will doubtless lead to a considerable extension of the movement.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings" will be received at this office until Monday, July 25, 1904, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office. Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tender is not accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By order,
FRED GELINAS,
Secretary and acting Deputy Minister.
Department of Public Works,
Ottawa, June 24, 1904.

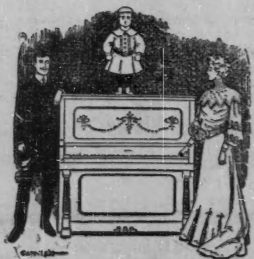

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

ESTRAY—\$5 REWARD.

One light roan mare white head, brand E on right shoulder. Last seen at Mr. Dean's 5 miles north of Edmonton. R. E. Patterson, Edmonton. sw-71-4f

FOR SALE.

New milk cow with or without calf. Apply to Chas. Brunell, sec. 19-54-24 west 4th, Poplar Lake, S. D. sw-70-9d

A Family Affair

Is our Doherty Organ. It is the one instrument that will respond satisfactorily to the strong fingers of the father, the dainty touch of the mother and will not be injured by the fatterling hands of the children. Altogether it is a handsome, sweet toned, strong and durable instrument. It is unsuited for the rendering of sacred music. We have them in variety of styles and sizes from \$50 to \$150.00.

MILITIA BILL PASSED

WILL RE-DRAFT CLAUSES

No Serious Opposition Offered the Militia Bill at any Stage

Bulletin Special Dispatch.
Ottawa, July 12.—The Militia Bill passed the committee of the whole to-night without serious opposition at any stage or any point. One clause stands to be redrafted. It relates to compensation to persons injured by stray shots at rifle ranges.

NEWS OF THE WORLD

IN BRIEF PARAGRAPHS

Condensed Dispatches Dealing With the Day's Most Important Happenings

Winnipeg, July 13th.
Cardinal Satolli is at St. Paul.
Mayor Jones, of Toledo, is dead.
An aged man was murdered in New York.
The Alaska Boundary correspondence is published.
In the Dominion House the Militia Bill was practically disposed of.
Dr. J. H. McCullough, of Battleford, late of Owen Sound, is dead.
There is a general strike among employees of the American packers.
The C.P.R. crop bulletin indicates that the wheat outlook is excellent.
High Ball, the American Derby winner, broke his leg at Brighton Beach.
Sir Wm. Van Horne will be present at the opening of the Dominion exhibition.
The steamer with the relieving guard of the N.W.M.P. sails from Halifax today.
In the Northern League Winnipeg won and lost at Superior, Duluth captured a double header from Fargo, and Crookston defeated Grand Forks.
The decision of Justice McMahon,

declaring that the Christian Brothers are disqualified from teaching in Ontario, has caused a furore. A big legal battle is on, as every member of a religious order is affected. Priests say the decision violates the British North America Act. Le Temps, a local French paper, says the decision is right and orders must qualify under the Educational Act.

The Portage Plains aflame with gorgeous orange flames, framed in a fire of waving wheat fields, offered a fitting welcome to the Orangemen yesterday in their celebration of the 12th. Thousands strong they flocked to the city plains, which received them right royally. Hugh Armstrong, Member, drove to the station to meet the Winnipeg brethren who with their friends filled a special train of over one thousand excursionists.

Although it is denied in certain quarters that the Hon. Clifford Sifton will replace Lord Strathcona in London, leading Liberals in Montreal claim the contrary. A prominent Bank of Montreal man discussing the matter said that if Mr. Sifton went to London Lord Strathcona would return to Canada as Governor General.

The report is published that Sir Daniel McMillan will refuse from the Governor's chair to accept the nomination in Selkirk. He has great popularity and it is believed he would carry the seat. Rumor further says that Mr. Sifton will go to England as Commissioner and that Sir Daniel will take his place as Minister of the Interior, ring top, step and jump, running.

BISHOP PLEASED

MEN AND MEANS COMING

The Bishop of Calgary Expresses Satisfaction with the Result of his Vi

London, July 12th.—The Bishop of Calgary expresses himself as very well pleased with the results of his English visit. He has secured several good men and money is coming freely to help along the work.

ORANGEMEN GATHER

FOR ANNUAL CELEBRATION

Alberta Members of the Order Observed Yesterday in Strathcona

The Orangemen lodges of Alberta gathered in Strathcona yesterday and celebrated the day in speech making and sports.

The special train on the C. & E. brought representatives of the lodges from along the line, the Calgary lodge turning out in splendid force.

The Fort Saskatchewan lodge drove up during the morning and joined the Edmonton lodge here. A session of the lodge was held in the hall and at noon the two lodges formed up and headed by the banner and fife and drum band from the Fort, marched to the C. N. R. depot, where they entertained for Strathcona. There they joined the brethren from the south and Strathcona and marched to the exhibition grounds, where the celebration was held.

It is estimated that fully 1000 members of the order were in line in the parade.

Prizes were offered for the best decorated hotel and the best decorated private house and bunting and flags were to be seen everywhere about town.

At the grounds speeches appropriate to the occasion were made by Rev. Johnston, J. C. Rutherford, M. L. N. and N. D. Mills.

The sports program included, 1-4 mile

pony race, 100 yard race, 220 yard race, Orangemen's race, fat man's race, ladies' race, girls' race, boys' race, runnings—score 5 to 4 in favor of long jump, standing jump, high jump, vaulting with pole, and putting the shot.

These events were all well entered and the contests keen.

In the evening the Edmonton and Strathcona teams lined up to play ball for the set of handsome medals offered by the order but the rain terminated matters at the end of the fourth inning score 5 to 4 in favor of Strathcona.

FIRE LAST NIGHT

CAUSED BY LIGHTNING

Large Frame Building on First Street Struck During Last Night's Storm

A large frame building on First street out near the C. N. R. station site, was struck by lightning during last night's storm. The building is owned by Mr. Cuthbertson, and occupied by him as a plumbing shop.

The lightning struck in the roof, apparently at the front of the building, and flames broke out quickly. The alarm was brought to the hall and the hose wagon turned out with a few of the men who happened to be near. Unfortunately the rope on the fire bell broke and only a brief alarm could be sounded until repairs were made.

By the time this was completed another call came for a fire near the new school. The second alarm brought a large force of firemen, who, owing to the severity of the storm, had not heard the first, and the remaining hose reels were turned out. The call had apparently been misunderstood as no fire could be found in the locality referred to, and the additional appliances were taken to the burning building on First street.

Here the men who had gone out with the wagon on the first alarm had been doing good work and though the fire was in the peak of the roof, in a position difficult to reach, and a heavy wind blowing, which made it difficult to play the water with accuracy, the fire was confined to the attic and soon gotten under control and extinguished, though not before considerable damage had been done to building and stock.

Doukhobors are Clean People

J. S. Macraut, a western man, who has been engaged in opening up the Canadian Northern from Grand View to Saskatoon, has been visiting the city of Winnipeg and in talking to one of the newspapers there gave an interesting account of the country through which he had travelled. He said:

"Where we went through is an entirely new country, very sparsely settled, although there are settlements of Doukhobors, and Galkans scattered along the line. Speaking of the Doukhobors, there are thirty villages, ranging from 100 to 200 people in each village, in the Assiniboine district and fifteen in the Prince Albert district. The Doukhobors live in log houses with sod roofs. They are very clean people, and exceedingly industrious, and make peaceable citizens. They use no meat, tobacco or liquor. They marry at the age of eighteen, the consent of the parents on both sides being all that is necessary. All their clothing, food stuffs, etc., are supplied from Winnipeg. Peter Verigin is the head man and does all their business for them, furnishing all their horses and machinery. They have forsaken their fanatical ideas entirely, and are becoming every day more westernized.

"The Doukhobors are a very healthy people," continued Mr. Macraut, "and one reason for their genuine health is the fact that they have regular and frequent baths. Their houses are built of logs, and inside there is a stove fireplace. They heat the stone to a white heat and close the doors. Then they throw a pail of water on the hot stones. This gives them a most magnificent vapor bath, and they come out with their skins as fresh, pink and rosy as that of a baby. Another thing that contributes to the health of the race is the fact that they live entirely upon bread made from the flour before the shorts is extracted.

"Travelling through the Crowfoot

Indian Reserve," said Mr. Macraut, "is just like a park. Here is the headquarters of the Presbyterian Indian Mission. The bluffs around are beautifully trimmed, and the road is magnificent, being the old original 'Pelly Trail.' It is the nicest prairie I have ever seen. From a vantage point it presents a sight that the eye will never forget.

"All I can say is," concluded the speaker, "that the Territories is a magnificent farming country. Although the country is new, it is impossible to get homesteads 'towed' as immigration has been so great during the last year. Any person that wants to settle on a farm can soon establish a home for himself, and before long, become independent."

Parker Balks

St. Louis, July 11.—Judge Parker insists on the gold standard plank in the Democratic platform and may decline the nomination unless silence on that issue is broken by the party leaders. He has wired W. F. Sheehan his views.

W. J. Bryan came in while the telegram was being read to the gathering. He went to the platform and appeared to be in a state of great physical exhaustion.

Nominations were called for vice-president and several names were proposed, but it was decided first to discuss Parker's telegram and see for sure if he would run for the presidency, before nominating a running mate. Great confusion resulted in the hall and at 8 o'clock a conference of leaders of the party was held. Finally a telegram was sent to Judge Parker that the convention purposely left out the financial plank in the platform, as it was not an issue.

On the first ballot, Henry B. Davis, of West Virginia, was nominated for vice-president, and the choice was made unanimous. The convention then adjourned sine die.

CALL FOR TENDERS.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 16, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may on application to the Minister of the Land, or Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. Fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following upon and cultivation of the land in each year during the term of three years:

(1) At least six months' residence years.
(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of "no of said occupant of said land" failing patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clause 2, 3, or 4, must "possess" the land for six months, or for a longer period, and must have buildings for his accommodation, and have besides 30 acres sub-tenanted.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior.
N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

Notice of Dissolution

Notice is hereby given that the partnership heretofore subsisting between the undersigned as undertakers in the town of Edmonton, has this day been dissolved by mutual consent, all debts owing to the said partnership are to be paid to John A. Appleby at Edmonton aforesaid, and all claims against the said partnership are to be presented to the said John A. Appleby, by whom the same may be settled.

Dated at Edmonton, Alberta, this eleventh day of June, A.D. 1904.

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery, and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use.

When reduced with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will see 't badly; you will need it quickly. We don't buy it now and be prepared for such an emergency! Price, 25 cents.

2 IN 1
2 Shoe Polishes in 1 Paste
That's 2 in 1 Shoe Polish—the polish that has revolutionized shoe-shining. One application—one rubbing—two minutes' time—and shoes look like patent leathers.
"2 in 1" is a Paste, that puts on a waterproof, dustproof shine that won't soil the clothing. It's good for the shoes, too.
In 15c tubes, and 10c and 25c boxes.

LOCAL

—Jas. McGeorge has removed his office to Room 7, Fraser block.

—There is now continuous telephone service between Edmonton and Strathcona.

—Owing to the storm and the fire there was no meeting of the town council last evening.

—The lawn social which was to be held at Mrs. Manson's last night was postponed till to-night.

—Messrs. Hume and Paul of the Hub Cigar store have installed three silent salesmen and are putting in other fittings to improve the appearance of their store.

—The following articles found on the exhibition grounds await owners at Sec. Times' office: breast pin, 3 parascals, 1 bicycle, 2 places darning, 1 bag barley, 1 vest.

—J. H. Morris & Co. have put in a set of Fit-Reform wardrobes in their gents' furnishings department. Linoleum will be laid on the floor of this department and silent salesmen put in throughout the store.

—The school board met yesterday. It was decided to put a steam heating plant in the new McKay avenue school. It was also decided to adopt a sliding scale of salaries in the employment of teachers. The initial salary for lady teachers of two years experience is \$600, increasing \$15 per year until \$720 is reached. Three vacancies now on the staff will require to be filled when the schools reopen on August 29th. The vacancies were caused by the resignations of Miss J. Miller, Miss E. Miller and Mr. Munro.

—G. S. Davidson, one of the most popular and widely known sportsmen in the Northwest, passed away at his home in Indian Head Thursday. The deceased had been ill with appendicitis for a short time and early in the week was operated on. "Doc" Davidson, as he was popularly known by his associates and all followers of the game of curling, was one of the best skips in the west and for the last three seasons had always had to be reckoned with the best of them.

PERSONAL

Miss Clara Oliver returns this evening from Toronto.

J. Graham returned from the south on Monday.

Miss Eleanor Taylor was successful in taking the matriculation examination at McGill University, Montreal. Miss Taylor will return home about the last of the month.

Miss Jessie Thit of Lacombe, formerly of Alberta college, is in town, the guest of Miss Maggie Groat.

Mr. J. Pickering who has been spending a few weeks with his son, Dr. Pickering, left on Saturday for a trip to the coast.

Mr. George W. Creamer and wife and A. W. Playfair and wife came in on last night's train and are the guests of Mr. Chris. Creamer, of this city. These gentlemen are very extensive farmers in Manitoba and are en route for British Columbia and the coast cities. They are delighted with what they have seen of our city so far.

C. Edward Carlept returned last week from St. Lawrence College, Montreal, to spend his vacation here.

P. D. McTavish came up from Calgary last night.

THE WEATHER DURING JUNE

The monthly weather map has been issued by the Meteorological department and may be seen in the waiting room of the post office.

As shown by it the mean temperature for June was slightly below the average over the greater portion of Canada and in the more northerly counties of Ontario and Quebec was slightly above the average.

The following table shows the highest and lowest points reached by the mercury at various points throughout

Canada during the month:

Victoria	78 43
Edmonton	84 35
Battleford	83 33
Prince Albert	88 33
Calgary	84 32
Medicine Hat	84 38
Swift Current	93 38
Qu'Appelle	86 35
Winnipeg	89 37
Port Arthur	80 37
Toronto	84 43
Kingston	80 46
Montreal	84 47
Quebec	85 41
Halifax	84 35

The rainfall was in excess of the average mean amount for June in the northern portion of Alberta and Saskatchewan and throughout Manitoba, also in central and northern Ontario; in other portions there was a deficiency.

The general summary for Edmonton notes that the rainfall has been heavy for the month and thunder storms frequent. No frost occurred during the month and the crop prospects were generally good.
